

Children's Health  
Impact Summit  
October 6, 2014

# Asthma

## ACTION ITEMS

### NEXT STEPS

1. Prioritize schools based on frequency of emerging events for environmental inspection
2. Increase school nurse coverage
3. Support resources for better data collection on asthma and impact on students
4. MNPS maintenance work with HD again to develop environmental assessment program
5. Conduct/expand asthma education training to teachers, parents, coaches (open house, parent university)
6. Improve communication between SH nurse and pediatrician
7. Increase opportunities for SH nurses to do education with students - spacers
8. Recruit TNAAP and TSSAA activity in our task force and TN ALA, MNPS maintenance
9. Be more proactive about understanding which health plans do best job of covering asthma
