

Programs & Services: Key Features

Our small groups participated in an exercise during which they were asked to imagine they were designing a brand new program or service. Their task was to list the key features a program or service should have to achieve the greatest chance for success in meeting its goals. The lists below represent a consolidated list of results from each group — a list of key features for the prototypical program or service.

| Awareness, Education & Prevention | Intervention and Continuum of Care |
|--|---|
| <ul style="list-style-type: none"> • Evaluation tool-effectiveness health life. | <ul style="list-style-type: none"> • Improved provisions for follow-up. |
| <ul style="list-style-type: none"> • Grassroots involvement at every level. | <ul style="list-style-type: none"> • Including other providers, not just MDs. |
| <ul style="list-style-type: none"> • Adjusting tactics based on ongoing evaluation. | <ul style="list-style-type: none"> • Include faith-based organizations/institutions. |
| <ul style="list-style-type: none"> • Ongoing incorporation of global research findings to strengthen message. | <ul style="list-style-type: none"> • Long term community buy-in/commitment. |
| <ul style="list-style-type: none"> • Messages developed by target population. | <ul style="list-style-type: none"> • Mechanism to engage caregivers (parents, extended families, volunteers). |
| <ul style="list-style-type: none"> • Outcomes simple but measurable. | <ul style="list-style-type: none"> • Coordinate communication along continuum of care. |
| <ul style="list-style-type: none"> • Outcomes not counting widgets. | <ul style="list-style-type: none"> • As part of CPS investigation, provide mandatory 10 sessions with provider for child (counseling). |
| <ul style="list-style-type: none"> • Vertically integrated communication plan, including focus groups. | <ul style="list-style-type: none"> • Mandatory groups for non offending caregivers within CSA investigation. |
| <ul style="list-style-type: none"> • Educate provider to hear voice of underserved instead of judging. | <ul style="list-style-type: none"> • Follow up care for risk assessment on in-home visits. |
| <ul style="list-style-type: none"> • Overcoming stigmas attached to accessing services. | <ul style="list-style-type: none"> • Intermediary to coordinate/connect services. |
| <ul style="list-style-type: none"> • Intermediary to coordinate/connect services. | <ul style="list-style-type: none"> • Assure adequate social work & case support. |
| <ul style="list-style-type: none"> • Broadening responsibility to include community, schools, churches. | <ul style="list-style-type: none"> • Develop referral network; MOUs screenings not enough |
| <ul style="list-style-type: none"> • Youth specific & strength based parent education. | <ul style="list-style-type: none"> • Healthcare management at primary healthcare level. |
| | <ul style="list-style-type: none"> • Assure full array of supports to youth. |

| Cultural Competence and Health Disparities | Insurance and Access to Care |
|--|--|
| <ul style="list-style-type: none"> • Training for service providers- culture of poverty. | <ul style="list-style-type: none"> • Expanded hours, after 5:00. |
| <ul style="list-style-type: none"> • Train interpreters in concept, language, etc. | <ul style="list-style-type: none"> • Transportation , bridges to care. |
| <ul style="list-style-type: none"> • Communicative connection between caregivers and interpreters. | <ul style="list-style-type: none"> • Access to care for uninsured/under insured. |
| <ul style="list-style-type: none"> • Compensatory communication strategies. | <ul style="list-style-type: none"> • Loving radical care at every level "Mother Test." |
| <ul style="list-style-type: none"> • Overcoming fears of governmental/outside interference. | <ul style="list-style-type: none"> • Additional services in schools, outside of school hours. |
| <ul style="list-style-type: none"> • Addressing socio-economic competency. | <ul style="list-style-type: none"> • Health insurance literacy. |
| <ul style="list-style-type: none"> • Customize to fit the needs of client populations. | <ul style="list-style-type: none"> • Acceptable and quality services. |
| <ul style="list-style-type: none"> • Empower underserved, parents, & caregivers to speak up appropriately. | <ul style="list-style-type: none"> • Communicate story to stakeholders. |
| <ul style="list-style-type: none"> • Educate provider to hear voice of underserved instead of judging. | <ul style="list-style-type: none"> • Advocate public policy for equal coverage for mental health. |
| <ul style="list-style-type: none"> • Community Advisory Boards. | <ul style="list-style-type: none"> • Removing caps for certain diagnoses. |
| <ul style="list-style-type: none"> • Mobile/home youth based services. | <ul style="list-style-type: none"> • Home visiting services for assessment prevention & parent training (access). |
| <ul style="list-style-type: none"> • Organizational model must respond to community needs – Rework the medical model. | <ul style="list-style-type: none"> • Community "funds" for preventive health not covered by insurance. |
| <ul style="list-style-type: none"> • Age-appropriate approaches to working w/ children & youth. | <ul style="list-style-type: none"> • Have programs re-contract or open providers. |
| <ul style="list-style-type: none"> • Respect religion & values of parents when working with youth. | |
| <ul style="list-style-type: none"> • Sensitivity to health & other disabilities. | |
